BRIEF ABSTRACT OF LETTER.

Represents that, as the estimates framed by the Senior Surgeon for the medical portion of the State budget are scrutinized by this office, it would be advantageous if the corresponding provision in the Local budgets is also examined there.

NOTES AND ORDERS.

2) The departmental budgets received in Branch II are scrutinized by the Comptroller before sanction and so it is advantageous to get the D Fs

Municipal budgets also examined by him not only with regard to the medical portion but also with regard to other items of receipts or expenditure which can conveniently be examined in his office. The Comptroller suggests that the examination may be arranged, either by requesting the Presidents to submit to Comptroller copies of budgets submitted to Govt or by referring the budget files unofficially to the Comptroller before sanction. The 2nd course suggested above of sending the budgets for favour of remarks by the Comptroller is more convenient and maybe adopted, as it does not contravene the provisions of the GS Rules.

~~Sir,~~ Sir,

I have the honour to invite reference to para 3 of Government Order No. 3534-43/L.B.299-04-7 dated 3rd November 1906, directing that a detailed statement showing the amount required on account of each of the items - Hospital Establishment, Cortingencies, and Country Medicines - should be furnished annually by the Senior Surgeon to the Presidents of the several District and Municipal Boards who are required to embody the same in the annual Budgets to be submitted to Government under rule 129 of the rules passed under Local Boards Regulation II of 1902 and to state that according to this arrangement no opportunity is afforded to this Office to see that due provision is made in the Local Budgets under all the several heads of charges for which contribution is payable to General Revenues.

2. The Medical Charges in the Local Budgets are of 3 kinds. Viz.(1). Establishment and other fixed Charges which are provided for in accordance with the sanctioned scale -

States that the
Accounts suggested
can be conveniently
made in this office
by having detailed
Statements from the
Sanitary Surgeon and
Consolidating them
for incorporation in
checking into the
figures of the
State Budget

(ii) Varying Charges Viz. Country Medicines etc, for which provision should be made only to the extent of the actual - cost incurred inthe previous year from General Revenues, - Vide. Government Proceedings No.987-96/L.B.3C7-C6-6 dated 2nd August 19C7 and (iii) Charges on account of construction and repairs of Local Fund Dispensaries for which average of 3 years actuals should be provided for Vide - - Proceedings No.165-76/L.B.17-9 dated 9th July 19C4.

The mode of adjustment of charges specified in (i) and (ii) is laid down in rule 1C9 issued under Local - Board Regulation, of those enumearated in (iii) in Government Order No.3891-9C2/L.B.112-C8-2 dated 28th October 19C8

3. In making the adjustment of the charges specifi edin (ii) in this Office as required by the Senior Surgeon it was found that in some instances no provision was made - inthe Local Budgets either for want of information from - the Senior Surgeon in time or for some other reason. Much diffi-culty was felt in regard to the mode of adjustment of these items.

4. As the Estimates framed by the Senior Surgeon - for the Medical portion of the State Budget are scrutinised by this Office it seems advantageous if the corresponding provision entered in the Local Budget be likewise examined here. If Government have no objection this may be arranged either by requesting the Presidents to send to this office copies of ~~other~~ these Budgets submitted to Government or by the Budget files being sent from the Secretariat unofficially to this Office for note before the Budgets are sanctioned by by Government. Such a procedure will also be helpful in reconciling the figures entered in the Local Budgets with - those entered in the State Budget. At present the actual credits annually made to the State Medical Budget under -

(3)

rule 109 referred to above have no reference whatever - to the amounts provided for on the receipt side as recoverable. These latter are based on the amounts provided as expenditure for the year as proposed by the Senior Surgeon. As it is the Senior Surgeon who furnishes the figures for both the Local and State Budgets there is no reason why the Estimates and other fixed charges in both the Budgets - - which should be in accordance with the sanctioned scale - should not agree. As regards the varying charges the amo amounts likely to be spent during the year are entered in the State Budget while the actuals as furnished by the - - Senior Surgeon are to be provided for in the Local Budgets.

I beg to say that the scrutiny above suggested - can be conveniently made in this office by having ~~d~~ detailed Statements from the Senior Surgeon and consolidating them for incorporation in or checking with the figures in the State Budget.

I beg that suitable orders of Government may - - be kindly passed in the matter.

I have the honour to be,

Sir,

Your most obedient servant,

Chakravarti

Comptroller.
